01 Introduction

مقدمة

This record presents the work of Al Saher Engineering Consultancy since its founding in 1996, arranged by type of service.

Prof. Dr. Saher Rafaat El-Khoraiby and Prof. Dr. Bakenaz Zeidan founded the office in Mansoura. Its work covers structural design and construction supervision, soil investigation and foundation recommendations, field and laboratory testing, technical reports, and the design of irrigation structures. From 2005 to January 2021 the office served as a design review office for the Egyptian Decennial Liability Insurance Pool.

1996	138	697	214	189
Established	Structural design and supervision projects	Soil investigation reports	Field and laboratory tests	Design reviews for the Pool

ABOUT THIS EDITION

This is the public edition of the project record. Names of individual owners, contractors and other consultants, contract values and insurance policy numbers have been removed; public bodies are named. On some projects the office worked within a team led by another consultant; each section heading describes the office's role. Project titles are translated from the office's Arabic records. Full details and certificates are available on request.

02 Consultancy & Technical Reports

الاستشارات والتقارير الفنية

Soil investigation reports, dewatering and excavation-support design, method statements and inspection reports for owners, contractors and public bodies (2011–2025).

001 Soil investigation and foundation report for Al-Azhar preparatory and secondary institute, Al-Saadia village, Sherbin, Dakahlia (Dec 2025)

002 Technical report on the backfill works of Tahya Misr 2 terminal, Damietta Port, New Damietta (May 2025)

003 Soil investigation and foundation report for a residential tower, Al-Bahr St., Dekernes, Dakahlia (Nov 2024)

004 Soil investigation and foundation report for a staff housing building at the religious institute, El Alamein, Matrouh (May 2024)

005 Soil investigation and foundation report for a residential tower, Amr Ibn El-Aas St., Mansoura, Dakahlia (Jan 2024)

006 Construction-method report for gravity line 14, manholes 6-20 to 6-24, Al-Safa village sewerage, Zafar (84) rural cluster, Tamy El-Amdid, Dakahlia (Aug 2023)

007 Inspection report on manholes, Al-Madares St., sustainable rural sanitation programme, Menshat Abdel Rahman cluster, Dekernes, Dakahlia (May 2023)

008 Inspection report on manholes, Al-Gameya St., sustainable rural sanitation programme, Menshat Abdel Rahman cluster, Dekernes, Dakahlia (May 2023)

009 Inspection report on structures along the main line, manholes 13 to 27, Al-Safa village sewerage, Zafar (84) cluster, Tamy El-Amdid, Dakahlia (Apr 2023)

010 Inspection report on structures along line 24, manholes 20-6 to 24-1, Al-Safa village sewerage, Zafar (84) cluster, Tamy El-Amdid, Dakahlia (Apr 2023)

011 Technical report on the settlement of manhole 11, gravity line 2, Al-Salahat village sewerage network, Bani Ebeid, Dakahlia (Jul 2022)

012 Timber shoring design for excavation sides, sewer branch lines, El Khosous (Jun 2022)

013 Structural design and detailing of jacking pits for a gravity line under the covered Menshat Abdel Rahman canal (Jun 2022)

014 Structural design and detailing of jacking and receiving pits, gravity-line crossing, Menshat Abdel Rahman (71) rural sanitation, Dekernes, Dakahlia (Jun 2022)

015 Timber shoring design and construction recommendations, water and sewer network upgrade, Sayed Hamada St., El Khosous, Qalyubia (Jun 2022)

016 Dewatering design for a sewer line at Al-Gabal Al-Asfar, sewerage for urban extensions on the Suez Road and west of the Ring Road (May 2022)

017 Compaction of pipe bedding and protection layers, sewerage for Al-Rous village (Al-Zawrat and Ezbet Al-Khos networks), Motobas (Apr 2022)

018 Soil investigation, foundation design and construction report for box crossings under the railway and waterways, Sers El-Layan, Kafr El-Sanabsa, Menoufia (Mar 2022)

019 Compaction of pipe bedding and protection layers, sewerage for Abu Afada village and Ezbet Al-Islah, Motobas (Apr 2022)

020 Compaction report for 25 premium social-housing buildings, New Rashid, buildings 7, 8, 9, 12, 13 and 14 (Mar 2022)

021 Compaction report for Kafr Sonbat youth centre, Zefta, Gharbia (Mar 2022)

022 Load-test report, Dar Misr housing, model B (buildings 113 and 114), New Mansoura (Mar 2022)

023 Load-test report, Dar Misr housing, model B (buildings 115 and 116), New Mansoura (Mar 2022)

024 Timber shoring design and construction recommendations for a 1,023 m sewer-line renewal, Ezbet Al-Nasr, Al-Basatin, Cairo (Mar 2022)

025 Borehole report for box crossings under the railway and waterways, Sers El-Layan, Kafr El-Sanabsa, Menoufia (Mar 2022)

026 Load-test report, Dar Misr housing project (55 buildings), building 77 (Feb 2022)

027 Load-test report, Dar Misr housing project (55 buildings), buildings 218 and 219 (Feb 2022)

028 Load-test report, Dar Misr housing project (55 buildings), buildings 82 and 83 (Feb 2022)

029 Load-test report, Dar Misr housing project (55 buildings), buildings 96 and 97 (Feb 2022)

030 Load-test report, Dar Misr housing, 12 model-B buildings, New Mansoura, buildings 133 and 134 (Jan 2022)

031 Load-test report, Dar Misr housing, 12 model-B buildings, New Mansoura, buildings 135 and 136 (Jan 2022)

032 Dewatering design for a 1,000 m gravity line, Al-Rawda village sewerage, Faqous, Sharqia (Dec 2021)

033 Design of retaining piles for a pump house, Nousa Al-Bahr village, Nousa Al-Gheit (81) rural sanitation, Aga, Dakahlia (Aug 2021)

034 Compaction of the second 25 cm replacement layer, boundary wall axes 59 to 93, 3,000 m³/day wastewater treatment plant (design-build-operate), Menshat Abdel Rahman, Dekernes, Dakahlia (Aug 2021)

035 Dewatering design for manholes 1 to 13, Al-Safa village sewerage, Zafar (84) cluster, Tamy El-Amdid, Dakahlia (Aug 2021)

036 Timber shoring design for sewer gravity lines, Menshat Abdel Rahman (71) rural sanitation, Dekernes, Dakahlia (Jul 2021)

037 Construction-method and excavation report, 9,000 m³/day wastewater treatment plant, Zafar village, Tamy El-Amdid, Dakahlia (Jul 2021)

038 Concrete cube compression results, boundary wall foundations axes 94 to 126, 3,000 m³/day wastewater treatment plant (design-supply-install), Menshat Abdel Rahman, Dekernes, Dakahlia (Jul 2021)

039 Timber shoring design for sewer gravity lines, Menshat Abdel Rahman (71) rural sanitation, Dekernes, Dakahlia (Mar 2021)

040 Soil investigation and foundation report for a residential building, Al-Arab St., Beshla, Mit Ghamr, Dakahlia (Jun 2021)

041 Soil investigation and foundation report for Al-Kurdi basic-education school, Al-Kurdi village, Qallin, Kafr El-Sheikh (Aug 2021)

042 Report on the safety of buildings along sewer branch lines, Al-Horreya village, Menshat Abdel Rahman, Dekernes, Dakahlia (Jun 2021)

043 Hydrological studies for flood-hazard mitigation for projects in the United Arab Emirates (2022)

044 Preparation and delivery of a 40-hour training course for dam-management engineers, UAE Ministry of Energy (2021)

045 Replacement design for the Semtay siphon, Kafr El-Sheikh, General Directorate of West Delta Drainage (2015)

046 Water-quality assessment of Lake Qarun, committee formed by the Fish Resources Authority (2018)

047 Design of road retaining walls, Dakahlia, General Authority for Roads (2017–2020)

048 Design review of bridges over drains, General Authority for Drainage (2013–2020)

049 Soil investigation and foundation report for a plastics factory, free zone, Ataqa, Suez, block C, plot 13 (Jan 2019)

050 Soil investigation and foundation report for the replacement of a 70 t bridge over Al-Qurashiya canal, Al-Gemmeiza, Santa, Gharbia (Oct 2019)

051 Soil investigation and foundation report for a children's oncology building, Al-Horreya St., Mit Ghamr, Dakahlia (Feb 2017)

052 Soil investigation and foundation report for a tourist village, North Coast, km 77 (Dec 2017)

053 Soil investigation and foundation report for a residential tower, Delengat–Damanhour road, Delengat, Beheira (Jun 2017)

054 Soil investigation and foundation report for a mosque and nursery, Beshla village, Mit Ghamr, Dakahlia (Apr 2016)

055 Soil investigation and foundation report for a residential tower, Talkha, Dakahlia (Jun 2016)

056 Soil investigation and foundation report for a chemical industries factory, industrial zone, Gamasa, phase 3 (Jun 2015)

057 Soil investigation and foundation report for a culvert at km 0.85 on Bahr Hafir Shehab, Al-Nashra village, Belqas, Dakahlia (Aug 2015)

058 Soil investigation and foundation report for residential buildings, Abu El-Matamir, Beheira (Mar 2014)

059 70 t reinforced-concrete bridge on piles over Al-Tina canal, km 16.500, for the General Directorate of Water Resources and Irrigation, El Manzala (Feb 2014)

060 Soil investigation and foundation report for a residential and commercial tower, plots 5A and 5B, Al-Asafra, Montaza, Alexandria (Jan 2014)

061 Soil investigation and foundation report for a hall at the police sports club, Talkha, Dakahlia, for the Dakahlia Security Directorate (Feb 2013)

062 Soil investigation and foundation report for a mosque, Mit Ghamr–Senbellawein road, Etmeida village, Dakahlia (Nov 2013)

063 Soil investigation and foundation report for the replacement of a 90 t bridge at km 0.35 on Bahr Hafir Shehab El-Din, Belqas, Dakahlia (Nov 2013)

064 Soil investigation and foundation report for an aluminium extrusion factory, Mit Ghamr (May 2012)

065 Soil investigation and foundation report for an integrated residential development (Al-Khamayel), phase 3A, 26th of July axis and Cairo–Alexandria desert road (Nov 2012)

066 Soil investigation and foundation report for a sanitary-products factory, northern extensions, 6th of October City (Jun 2011)

03 Structural Design & Supervision

التصميم الإنشائي والإشراف

Residential, public, healthcare, educational and industrial buildings, and irrigation and water structures, with foundation type and number of floors where the record states them.

001 Al-Sawsan residential complex, Mansoura: 2,000 m², basement, ground and 9 typical floors, pile foundations

002 Al-Hoda residential tower, Mansoura: 400 m², ground, mezzanine and 9 typical floors, raft foundation

003 Residential and administrative tower, Mansoura: 1,000 m², basement, ground, mezzanine and 9 typical floors, raft foundation

004 Al-Ashraf residential tower, Mansoura: 400 m², ground, mezzanine and 9 typical floors, raft foundation

005 Residential tower, Mansoura: 360 m², ground, mezzanine and 8 typical floors, raft foundation

006 Al-Madaen residential tower, Port Said: 400 m², ground, mezzanine and 9 typical floors, raft foundation

007 Residential tower, Mansoura: 550 m², ground, mezzanine and 9 typical floors, raft foundation

008 Nile residential and administrative tower, Mansoura: 900 m², basement, ground, mezzanine and 9 typical floors, raft foundation

009 Residential tower, Mansoura: 350 m², basement, ground, mezzanine and 9 typical floors, raft foundation

010 Residential and administrative tower, Mansoura: 350 m², basement, ground and 8 typical floors, raft foundation

011 Residential building, El Manzala, Dakahlia: 460 m², ground and 6 typical floors, raft foundation

012 Residential tower, Mansoura: 400 m², ground and 5 typical floors, raft foundation

013 Nour El-Rahman residential tower, Mansoura: 650 m², basement, ground and 7 typical floors, raft foundation

014 Residential building (Mecca), Mansoura: ground and 6 typical floors, isolated footings

015 Residential building (Al-Safa), Mansoura: ground and 6 typical floors, isolated footings

016 Residential building, Dakahlia: 260 m², ground and 5 typical floors, isolated footings

017 Residential building, Mansoura: 180 m², ground and 5 typical floors, isolated footings

018 Residential building, El Manzala, Dakahlia: 190 m², ground and 4 typical floors, isolated footings

019 Residential building, El Manzala, Dakahlia: 210 m², ground, mezzanine and 3 typical floors, isolated footings

020 Al-Saber mosque, Demeira, Belqas, Dakahlia: 550 m²

021 Residential building, Mansoura, Dakahlia: 360 m², ground and 5 typical floors, isolated footings

022 Mansoura wholesale market extension, about 4,500 m², for the Dakahlia Chamber of Commerce

023 3,000-tonne cold store, Mansoura, about 5,600 m², for the Dakahlia Chamber of Commerce

024 Telephone exchange, Fuwwah, Kafr El-Sheikh

025 Fisheries research laboratories, Faculty of Veterinary Medicine

026 Al-Hayat hospital, Bella, Kafr El-Sheikh

027 Foundations of the Faculty of Arts, Tanta University (strip footings)

028 Control regulator at Sahl El-Husseiniya

029 Weir at km 3.550, Sheikh Zayed canal

030 Regulator at km 6.50, Sheikh Zayed canal

031 Bridge at km 8.5 over Al-Rayah Al-Menoufi, Tanta

032 Boxing hall, Mansoura stadium

033 Engineers Tower, Mit Ghamr: basement, ground and 11 typical floors, pile foundations

034 Maternity and childhood centre, Mit Ghamr

035 Social Affairs Directorate building, Kafr El-Sheikh

036 Veterinary Directorate building, Kafr El-Sheikh

037 Social Insurance building, Kafour El-Ramal, Menoufia

038 12,000-line telephone exchange, Safayef village, Beheira

039 Seawater desalination plant, Hurghada

040 Residential building, West Mansoura: 195 m², ground and 4 floors

041 Services complex, Baltim summer resort, for the Baltim local unit: 1,135 m²

042 Residential building, Bella: ground and 12 typical floors

043 Regulator at the Sahl El-Husseiniya north drainage pumping station (reclamation of 20,000 feddans), Arab Land Reclamation Company

044 Weir at km 3.550 on main branch no. 2, Sheikh Zayed canal, General Authority for Rehabilitation Projects and Agricultural Development

045 Reclamation of 40,000 feddans on the Sheikh Zayed canal, east of Suez

046 70 t bridge at km 8.500 over Al-Rayah Al-Tawfiqi, Irrigation Public Works Company

047 Al-Saleh tower (2), Al-Galaa St., Tanta

048 Residential buildings, model 5, Hamoul, Kafr El-Sheikh Housing and Utilities Directorate

049 Residential buildings, model 5, Baltim, Kafr El-Sheikh Housing and Utilities Directorate

050 Al-Salam residential building: ground and 9 typical floors

051 Foundations of low-cost housing, model A, buildings 9, 10, 13 and 14 (ground and 5 floors), Dekernes, for the Dakahlia Housing Directorate

052 Foundations of a model rural health unit (ground and first floor), Al-Shehabiya, Baltim, Kafr El-Sheikh

053 1,000 m³ elevated water tank, Sheikh Zayed

054 El Qantara – El Arish – Rafah water line, National Organisation for Potable Water and Sanitary Drainage

055 1,000 m³ elevated water tank, 45 m high, Kafour El-Ramal industrial zone, Quesna, Menoufia Housing and Utilities Directorate

056 200 m³ elevated water tank, 35 m high, Ebshin village, Menoufia Housing and Utilities Directorate

057 1,000 m³ elevated water tank, 45 m high, Zawir village

058 1,000 m³ elevated water tank, 45 m high, Kafour El-Ramal village, Quesna

059 Internal infrastructure, Al-Shahid Mostafa Al-Hawy canal command area (modern irrigation), south El Qantara East, Ismailia, North Sinai Development Project executive agency

060 Internal infrastructure, branch 1/1 of Al-Shahid Saleh Soliman Ouda canal (modern irrigation), south El Qantara East, Ismailia, Ministry of Public Works and Water Resources, North Sinai Development Project

061 Civil works for the internal infrastructure of 63,000 feddans, left bank of Al-Shahid Abdou Rabbo Hamada canal, El Qantara East, Sahl El-Tina extension, Ismailia, North Sinai Development Project

062 Foundations of low-cost housing, model B, building 11 (ground and 5 floors), Dekernes, for the Dakahlia Housing and Utilities Directorate

063 Foundations of low-cost housing, model A, buildings 1 and 2 (ground and 3 floors), El Matareya, for the Dakahlia Housing and Utilities Directorate

064 Warehouse building, Executive Agency for Land Improvement Projects, Nubaria

065 Administration building, Executive Agency for Land Improvement Projects, Nubaria

066 Lecture hall, Faculty of Pharmacy, Tanta University

067 Residential building, Al-Ahram St., Bella: ground and 5 floors

068 Al-Hoda residential tower, Mansoura

069 Abattoir, Riyadh city, Kafr El-Sheikh Housing and Utilities Directorate

070 Residential building: ground and 5 typical floors

071 Residential building, Al-Souq and Ibrahim Khalil streets, West Mansoura: basement, ground and 6 floors

072 Seawater desalination plant, Hurghada: administration building (ground and first floor)

073 Seawater desalination plant, Hurghada: treatment room

074 Social affairs building for the women's association, Kafr El-Sheikh Housing and Utilities Directorate

075 Planning of the craftsmen and young graduates city, Gharbia

076 Restaurant, cafeteria and open-air theatre, New Damietta

077 Library, 4th district, New Damietta

078 Residential building, Abdel Salam Aref, for the Dakahlia Housing and Utilities Directorate

079 200 m³ elevated water tank, 35 m high, Kafr Ibrahim village, Quesna, Menoufia

080 Mubarak-Kohl school, New Damietta

081 Open market, district centre, New Damietta

082 Al-Sawsan Plaza tower, corner of Mohamed Fathy St. and Al-Gomhoreya St., Mansoura

083 Al-Sawsan Mall tower, behind the courts complex, Mansoura

084 Mecca specialised hospital, Senbellawein

085 Residential tower, Al-Zarif St. off Ahmed Maher St., Mansoura

086 Islamic complex of Al-Gamiya Al-Shareiya, Ebshan, Bella, Kafr El-Sheikh

087 Mosque, Aghour El-Ramal, Quesna, Menoufia

088 Al-Rawda mosque, Imam Al-Shafei St., Mit Ghamr

089 Faculty of Agriculture, Kafrelsheikh University

090 Students' mosque, animal house and gas store building, Faculty of Pharmacy, Mansoura University

091 Administration building, Faculty of Physical Education, Tanta University

092 Three laboratories on the Faculty of Engineering land, Sakha, Kafr El-Sheikh

093 Boundary wall of the health unit, Al-Sahel Al-Qibli, Baltim, Kafr El-Sheikh, for the Baltim local unit

094 Expansion wings, Damas Central Hospital, Mit Ghamr, Dakahlia, for the Ministry of Health and Population

095 Eastern bus station, Baltim, Kafr El-Sheikh, for the Baltim local unit

096 Faculty of Physical Education, Kafrelsheikh University

097 Mubarak-Kohl school, New Damietta, for the New Damietta City Development Authority

098 Commercial market building for national housing, south of the 4th district, New Damietta, for the New Damietta City Development Authority

099 Engineering-industries factory, plots 1 and 3, east A6, industrial zone, 10th of Ramadan City

100 Pharmacure pharmaceutical factory, Obour City, block 11-12, plots 2 and 17

101 Staff club of the Port Said Housing and Utilities Directorate, for the same directorate

102 Inner canal area, Port Said, for the Port Said Housing and Utilities Directorate

103 Al-Azhar preparatory and secondary institute, Kafr Saranga, Mit Ghamr

104 Mosque, Bint Ayoub St., Mit Ghamr

105 Vertical extension of the outpatient building, ophthalmology hospital, Shebin El-Kom, for the Menoufia Housing and Utilities Directorate

106 Educational administration building, Quesna, Menoufia, for the Menoufia Housing and Utilities Directorate

107 Al-Quds tower, Al-Shohadaa St. (formerly Mohamed Ali St.), Port Said

108 Two residential villas opposite the media centre, plots 2 and 3, villas area, Port Said

109 Residential villa, plot 143, Yasmin (7), New Cairo

110 Engineers Union tower, Kafr El-Sheikh

111 Residential tower, Desouk road next to the Armed Forces club, Kafr El-Sheikh

112 Premium housing buildings, Obour City, plots 4 and 5, block 11018

113 National Housing Project buildings on the former public market site, Menouf

114 Residential building, El Manzala, Dakahlia

115 Residential building, Abdel Salam Aref St. extension, Al-Bashtamir, Mansoura

116 Residential building, Samy Shalbaya St., El Manzala, Dakahlia

117 Residential building, Al-Horreya and Mohamed Hamed streets, Mit Ghamr

118 Residential building next to the electricity company, Mit Ghamr, Dakahlia

119 Residential tower, Gisr Al-Nil St. opposite the wholesale market, Mit Ghamr, Dakahlia

120 Residential tower, Al-Horreya St., Mit Ghamr

121 Residential tower, Al-Horreya St. opposite Al-Mabarra hospital, Mit Ghamr, Dakahlia

122 Residential tower, Gisr Al-Nil St., Mit Ghamr

123 Residential building, Beshla, Mit Ghamr, Dakahlia

124 Residential tower, Port Said St., Mit Ghamr, Dakahlia

125 Administrative and residential tower, corner of Al-Adib St. and Samia Al-Gamal St., Mansoura, Dakahlia

126 Al-Marwa tower, Samy Shalbaya St., El Manzala, Dakahlia

127 Residential building, Mit Badr Khamis village, Dakahlia

128 Residential building, Kafr El-Sheikh

129 Al-Nakhla tower, Al-Nakhla St., Mansoura, Dakahlia

130 Residential tower, Al-Geish St. opposite the stadium, Tanta, Gharbia

131 Residential buildings, expressway next to the wholesale market, Tanta, Gharbia

132 Residential tower, Taha Al-Hakim and Al-Bahr streets, Tanta, Gharbia

133 Residential building, Obour City, plot 29, block 17093 (family and youth housing)

134 Residential building, Bella, Kafr El-Sheikh

135 Residential building, plot 10, first neighbourhood, 9th zone, Al-Emarat district, El Shorouk City

136 Al-Farouk tower, Riyadh city, Kafr El-Sheikh

137 Residential tower, plot 6, veterans' subdivision, Kafr El-Sheikh

138 Residential villa, 5th district, Obour City, block 16033, plot 20

04 Soil Investigation

الجسات وأبحاث التربة

Borehole and soil investigation reports with foundation recommendations for residential and public buildings, bridges and irrigation structures, and water and sewerage projects in many governorates.

001 70 t navigation bridge at km 7.300 over Bahr Hadous drain, General Directorate of North Dakahlia Drainage

002 70 t navigation bridge at km 9.700 over Bahr Hadous drain, General Directorate of North Dakahlia Drainage

003 70 t bridge at the outfall of Al-Ibrahimiya drain, General Directorate of North Dakahlia Drainage

004 70 t bridge at km 10.200 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

005 70 t reinforced-concrete bridge, international road crossing over Al-Sananiya drain, km 0.900, New Damietta

006 70 t bridge at km 200 over Al-Hafir drain, Dakahlia, for the General Directorate of Damietta Drainage, Talkha

007 70 t reinforced-concrete bridge at km 0.300 over Al-Sabriya drain, Sherbin

008 70 t reinforced-concrete navigation bridge on piles at km 8.500 over Al-Rayah Al-Menoufi, Sarawa village

009 70 t bridge at km 0.300, Menshat Mubarak

010 Bridge at km 78.361, Sheikh Gaber canal (Beheira Company)

011 Bridge at km 85.450, Sheikh Gaber canal (Beheira Company)

012 Bridge at km 77.361/84, Sheikh Gaber canal (Beheira Company)

013 Bridge at km 60.100, Sheikh Gaber canal (Beheira Company)

014 Bridge at km 71.100, Sheikh Gaber canal (Beheira Company)

015 Bridge at km 16.282, Sheikh Gaber canal (Beheira Company)

016 Bridge at km 29.850, Sheikh Gaber canal (Beheira Company)

017 Bridge at km 32.900, Sheikh Gaber canal (Beheira Company)

018 Bridge at km 39.735, Sheikh Gaber canal (Beheira Company)

019 Bridge at km 55.094, Sheikh Gaber canal (Beheira Company)

020 Bridge at km 59.125, Sheikh Gaber canal (Beheira Company)

021 Bridge at km 66.950, Sheikh Gaber canal (Beheira Company)

022 Bridge at km 68.250, Sheikh Gaber canal (Beheira Company)

023 Siphon at km 8.00, Sheikh Gaber canal (Beheira Company)

024 Siphon at km 22.360, Sheikh Gaber canal (Beheira Company)

025 Siphon at km 46.400, Sheikh Gaber canal (Beheira Company)

026 Control regulator at km 58.050, Sheikh Gaber canal (Beheira Company)

027 Head regulator, Sheikh Gaber canal (Beheira Company)

028 30 t bridge at the outfall of Bahr Haggag drain, General Directorate of North Dakahlia Drainage

029 30 t bridge at km 1.100 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

030 30 t bridge at km 17.250 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

031 30 t bridge at km 15.420 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

032 Steel bridge structure at km 1.400 over El Gamaliya drain, General Directorate of North Dakahlia Drainage

033 30 t bridge at km 3.800 over the lower Al-Serw drain, General Directorate of North Dakahlia Drainage

034 30 t bridge at km 1.500 over Al-Rokabiya drain, General Directorate of North Dakahlia Drainage

035 Reinforced-concrete bridge at km 23.500 over Bahr Shebin (Al-Rayah Al-Abbasy), General Directorate of Central Delta Irrigation Improvement, Tanta, Gharbia

036 30 t reinforced-concrete bridge at the outfall of Toubar drain

037 30 t reinforced-concrete bridge at km 3.500 over Ras Al-Khalig drain

038 30 t reinforced-concrete bridge at the outfall of Al-Hadary drain, Sherbin

039 Bridge at km 0.700 over Al-Dahriya drain, General Directorate of Central Delta Drainage Projects

040 Bridge at km 9.200 over Al-Hafir drain, General Directorate of Damietta Drainage, Talkha

041 Bridge at km 18.550 over Al-Hafir drain, General Directorate of Damietta Drainage, Talkha

042 Bridge at km 12.400 over upper drain no. 1, Talkha, General Directorate of Damietta Drainage

043 Bridge at km 14.150 over Al-Hafir drain, General Directorate of Damietta Drainage, Talkha

042 Condition of buildings 5, 6 and 7, old livestock-market housing, Samannoud, Gharbia

043 Condition of building no. 18, Al-Tahrir St. off Al-Galaa St., Mansoura, Dakahlia

044 Condition of a building on Suez Canal St. and Toriel St., Toriel district, Mansoura, Dakahlia

045 Condition of the Chamber of Commerce building, Tanta, Gharbia

046 Condition of building no. 9, Haidar St. off Al-Modiriya St.

047 Condition of an existing house, Al-Geish St., Desouk

048 Condition of a basement roof, Agricultural Development and Credit Bank, Gharbia

049 Condition of a building on 23 July St., Sherbin, Dakahlia

050 Condition of the administration building, girls' industrial secondary school, Bella, Kafr El-Sheikh

051 Repair and strengthening of structural elements, Fuwwah general hospital, Kafr El-Sheikh

052 Condition of Al-Amal commercial market, Baltim summer resort, Kafr El-Sheikh

053 Condition of the conference hall, Mubarak industrial secondary school, New Damietta

054 Kafr Al-Enany primary school, Faraskour

055 Condition of a building on Khaled Ibn Al-Walid St. and Souq Al-Gomaa, Fuwwah, Kafr El-Sheikh

056 Integrated-care hospital, Sidi Ghazi, Kafr El-Sheikh

057 Sports federation building, Baltim, for the Baltim local unit

058 Suitability of concrete used in the earthworks and structure of 13 ponds, Al-Khashaa fish farm, Kafr El-Sheikh

059 Suitability of concrete in the structural frame of the proposed Berket Ghattas telephone exchange, Abu Hommos, Beheira

060 Suitability of concrete in columns, wall beams and a guard-room roof, Orban preparatory school, Fuwwah, Kafr El-Sheikh

061 Suitability of reinforced concrete in the main structural elements, western building, Borg El-Burullus

062 Concrete quality, construction of Al-Qan preparatory school, Sidi Salem, Kafr El-Sheikh

063 Suitability of concrete used to line canals 8, 8/3 and 8/4, south Sahl El-Tina

064 Suitability of Slurydex coating for concrete surfaces exposed to sewage, sanitation projects in Mit El-Korama, Batra and Tamy El-Amdid

065 Suitability of bitumen used for waterproofing, youth housing project, New Damietta

066 Concrete suitability, Menshat Essam telephone exchange, Shebin El-Kom, Menoufia

067 Technical report, Sidi Salem, Kafr El-Sheikh

068 Engineering report on the actual area of shop no. 1, ground floor, Al-Sawsan tower, Suez Canal St., Mansoura, Dakahlia

069 Condition report on a 1,000 m³ elevated water tank, 50 m high, Al-Zohour district, Quesna, Menoufia

070 Tilt assessment of a 200 m³ elevated water tank, 35 m high, Ezbet El-Hag Wahdan, Zefta, Gharbia

071 Hydraulic load test on three working piles, right abutment of the bridge at km 11.00 over Al-Atawy drain

072 Design study of the reinforced-concrete base for an air-compressor tower, factory south of Mansoura

073 Condition of walls in buildings 79 and 88, Qamar El-Din model, 427-unit national youth housing project

074 National youth housing project, 10th of Ramadan City

075 Awqaf towers project, Kafr El-Sheikh

076 Wholesale market project, New Damietta

COMPACTION AND PLATE LOAD TESTS (84)

077 Compaction of the second replacement layer, foundations of Kafr Gaafar primary school, Basyoun, Gharbia

078 Compaction of backfill, foundations of the lecture halls, Faculty of Specific Education, Tanta University, Gharbia

079 Compaction of the replacement layer, Mit Badr Halawa treatment plant, Samannoud, Gharbia

080 Compaction of the replacement layer, foundations of a hospital wing, Dammat, Qutour, Gharbia

081 Compaction of the replacement layer, foundations of the Kafr El-Mansoura youth centre administration building (standard model), Tanta

082 Compaction of the replacement layer, foundations of Al-Anbouteen youth centre, Santa, Gharbia

083 Compaction of the road sub-base inside the lift station under concrete slabs, Batra sewerage project

084 Compaction of clean-sand backfill over force-main pipes under asphalt roads, Batra sewerage project

085 Compaction of the base layer for internal roads, El Matareya wastewater treatment plant

086 Compaction of the first replacement layer, Borg Gamasa plant

087 Compaction of the second replacement layer, Borg Gamasa plant

088 Compaction of the third replacement layer, Borg Gamasa plant

089 Compaction of the first replacement layer, footing for shelter and generator

090 Compaction of the second replacement layer, footing for shelter and generator

091 Compaction of the replacement layer, foundations of Mit El-Korama rural hospital, Talkha, Dakahlia

092 Compaction of the base layer, internal road of the Qolengil electricity substation, Mansoura, Dakahlia

093 Compaction of the replacement layer, integrated-care hospital, Nesha village, Talkha, Dakahlia

094 Compaction of the surface replacement layer, Armed Forces officers' club development, Mansoura

095 Compaction of clean coarse-sand backfill over foundations, Tanikh hospital, Talkha, Dakahlia

096 Compaction of the base layer for internal roads, Sherbin wastewater treatment plant

097 Compaction of the base layer for internal roads, Sandoub networks administration, Mansoura, Dakahlia

098 Compaction of the base layer, private road in front of the electricity housing, Qolengil, Mansoura, Dakahlia

099 Compaction of the sand surface replacement layer over pipes, El Gamaliya sewerage (gravity networks, Zuhair station), Dakahlia

100 Compaction of the surface replacement layer, El Gamaliya sewerage (gravity networks, Zuhair station), Dakahlia

101 Compaction of the first to fourth replacement layers, Borg Motobas Al-Hamoul station

102 Compaction of clean-sand backfill over gravity-line pipes, Aga sewerage network

103 Compaction of clean-sand backfill over pipes, El Manzala sewerage, Dakahlia

104 Compaction of the surface, first, second and third replacement layers, Manpower Directorate building at the Workers' University, Kafr El-Sheikh

105 Compaction of the first replacement layer, foundations of the permanent telephone exchange, New Salhiya

106 Compaction of the replacement layer, youth housing building, Abu Suwir, airport road, Ismailia

107 Compaction of backfill, Teachers' Syndicate summer resort, Ras El-Bar

108 Compaction of the replacement layer, foundations of the Engineers Tower, Damietta

109 Compaction of the third and fourth replacement layers, foundations of the fire-water tank, Al-Azhar University Hospital, New Damietta

110 Compaction of the first to fourth replacement layers, Borg Motobas Al-Hamoul station

111 Compaction of clean-sand backfill over gravity-line pipes, Aga sewerage network

112 Compaction of sand backfill over pipes, El Manzala sewerage, Dakahlia

113 Compaction of the replacement layer, foundations of Kanisat Al-Saradousy rural hospital, Desouk, Kafr El-Sheikh

114 Compaction of the first, second and third replacement layers, Manpower Directorate building at the Workers' University, Kafr El-Sheikh

115 Compaction of backfill and replacement layers, Dairut telephone exchange, Assiut

116 Compaction of the replacement layer, youth housing building, Abu Suwir, airport road, Ismailia

117 Compaction of the replacement backfill, foundations of the Engineers Tower, Damietta

118 Compaction of the third and fourth replacement layers, foundations of the fire-water tank, Al-Azhar University Hospital, New Damietta

119 Compaction of backfill, events hall of the city-centre mosque, New Damietta

120 Compaction of backfill, residential part of the city-centre mosque, New Damietta

121 Compaction of backfill, tutoring classrooms of the city-centre mosque, New Damietta

122 Compaction tests on replacement soil, Kafr Gaafar school, Basyoun, Gharbia

123 Compaction tests on replacement soil, Dammat general hospital, Qutour, Gharbia

124 Compaction tests on the sub-base of a concrete-slab road, Sandoub networks administration, Mansoura, Dakahlia

125 Compaction of backfill for the men's toilets and ablution area, city-centre mosque, New Damietta

126 Backfill condition for internal roads, industrial zone extension, New Damietta

127 Compaction of the replacement layer, women's health unit, Abu Gereida, Faraskour, Damietta

128 Compaction of the base layer for internal roads, Faraskour transformer station, Damietta

129 Compaction of the base layer for internal roads, university hospital, New Damietta

130 Compaction of the gravel layer, multi-sport pitch, Kom Al-Hagna, Bella, Kafr El-Sheikh

131 Compaction of the replacement layer, foundations of Dumro Al-Haddady rural hospital, Sidi Salem, Kafr El-Sheikh

132 Compaction of the surface replacement layer, foundations of the Fuwwah cultural palace, Kafr El-Sheikh

133 Compaction of the replacement layer, Al-Hamrawy youth centre

134 Compaction of the replacement layer, foundations of building A, Kafr El-Sheikh

135 Compaction of the replacement layer, foundations of building B, Kafr El-Sheikh

136 Compaction of the replacement layer, foundations of building C, Kafr El-Sheikh

137 Compaction of the base layer, internal road of the Bella transformer station, Kafr El-Sheikh

138 Compaction of the replacement layer, foundations of Sanhour Al-Madina rural hospital, Desouk, Kafr El-Sheikh

139 Load tests, secondary school, 2nd district centre, New Damietta

140 Load tests, national youth housing project, Damietta

141 Load tests, Health Affairs Directorate building, Kafr El-Sheikh

142 Load tests, water collection and distribution project, East Port Said (generator building)

143 Load tests, Port Said fever hospital (building 10, support services)

144 Load tests, national youth housing, Damietta, buildings 6, 7, 8, 10, 12, 13, 14, 15, 17 and 20 (Al-Bondok model)

145 Load tests, national youth housing, Damietta, buildings 4, 8 and 14 (Qamar El-Din model)

146 Load tests, two residential buildings (model E), Borg El-Burullus, Kafr El-Sheikh

147 Plate load tests on replacement soil, Health Affairs building, Kafr El-Sheikh

148 Plate load tests on replacement soil, medical centre, Hamoul, Kafr El-Sheikh

149 Plate load tests on replacement soil, vocational training centre, Tanta

150 Report on the stability of buildings adjacent to the Ezbet Atallah lift station site, El Gamaliya, Dakahlia

151 Material properties and concrete mix design, animal-feed factory, Kafr El-Shorbagy

152 Concrete mix design, psychiatric and neurology hospital, New Damietta

153 Concrete mix design, El Gamaliya hospital, Dakahlia

154 Concrete mix design, government services complex, Senbellawein

155 Compaction of replacement layers, 500 m³ elevated tank, Sebk Al-Ahad, Shebin El-Kom, Menoufia, for the Menoufia Housing and Utilities Directorate

156 Compaction of the replacement layer under manholes, gravity networks for Al-Aziza village, El Manzala

157 Compaction of replacement layers, filter building, Kom Abu Radi plant (375 l/s), Al-Wasta, Beni Suef

158 Plate load tests on replacement soil, power, gases and waste-disposal plant, Al-Azhar hospital

159 Plate load tests on replacement soil, 15-bed rural hospital, Al-Rahamna, Faraskour, Damietta

160 Plate load tests on replacement soil, transformer building, new Al-Raswa water plant, Port Said

PILE LOAD TESTS (47)

161 70 t navigation bridge at km 7.300 over Bahr Hadous drain, General Directorate of North Dakahlia Drainage

162 70 t navigation bridge at km 9.700 over Bahr Hadous drain, General Directorate of North Dakahlia Drainage

163 70 t navigation bridge at the outfall of Al-Ibrahimiya drain, General Directorate of North Dakahlia Drainage

164 70 t navigation bridge at km 10.200 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

165 70 t reinforced-concrete bridge at km 0.900, international road crossing over Al-Sananiya drain, New Damietta

166 70 t bridge at km 200 over Al-Hafir drain, General Directorate of Damietta Drainage, Talkha

167 70 t reinforced-concrete bridge at km 0.300 over Al-Sabriya drain, Sherbin

168 70 t reinforced-concrete navigation bridge on piles at km 8.500 over Al-Rayah Al-Menoufi, Sarawa village, Menoufia

169 70 t bridge at km 0.300, Menshat Mubarak

170 Bridge at km 78.361, Sheikh Gaber canal (Beheira Company)

171 Bridge at km 77.361/84, Sheikh Gaber canal (Beheira Company)

172 Bridge at km 60.100, Sheikh Gaber canal (Beheira Company)

173 Bridge at km 71.100, Sheikh Gaber canal (Beheira Company)

174 Bridge at km 16.282, Sheikh Gaber canal (Beheira Company)

175 Bridge at km 29.850, Sheikh Gaber canal (Beheira Company)

176 Bridge at km 32.900, Sheikh Gaber canal (Beheira Company)

177 Bridge at km 39.735, Sheikh Gaber canal (Beheira Company)

178 Bridge at km 55.094, Sheikh Gaber canal (Beheira Company)

179 Bridge at km 59.125, Sheikh Gaber canal (Beheira Company)

180 Bridge at km 66.950, Sheikh Gaber canal (Beheira Company)

181 Bridge at km 68.250, Sheikh Gaber canal (Beheira Company)

182 Siphon at km 8.000, Sheikh Gaber canal (Beheira Company)

183 Siphon at km 22.360, Sheikh Gaber canal (Beheira Company)

184 Siphon at km 46.400, Sheikh Gaber canal (Beheira Company)

185 Control regulator at km 58.050, Sheikh Gaber canal (Beheira Company)

186 Head regulator, Sheikh Gaber canal (Beheira Company)

187 30 t bridge at the outfall of Bahr Haggag drain, General Directorate of North Dakahlia Drainage

188 30 t bridge at km 1.100 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

189 30 t bridge at km 17.250 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

190 30 t bridge at km 15.420 over Al-Tawil Al-Bahary drain, General Directorate of North Dakahlia Drainage

191 Steel footbridge at km 1.400 over El Gamaliya drain, General Directorate of North Dakahlia Drainage

192 30 t bridge at km 3.800 over the lower Al-Serw drain, General Directorate of North Dakahlia Drainage

193 30 t bridge at km 1.500 over Al-Rokabiya drain, General Directorate of North Dakahlia Drainage

194 Reinforced-concrete bridge at km 23.500 over Bahr Shebin (Al-Rayah Al-Abbasy), General Directorate of Central Delta Irrigation Improvement, Tanta, Gharbia

195 30 t reinforced-concrete bridge at the outfall of Toubar drain

196 30 t reinforced-concrete bridge at km 3.500 over Ras Al-Khalig drain

197 30 t reinforced-concrete bridge at km 0.800 over Al-Hadary drain, Sherbin

198 Bridge at km 0.700 over Al-Dahriya drain, for the General Directorate of Central Delta Drainage Projects

199 Bridge at km 9.200 over Al-Hafir drain, for the General Directorate of Damietta Drainage, Talkha

200 Bridge at km 18.550 over Al-Hafir drain, for the General Directorate of Damietta Drainage, Talkha

201 Bridge at km 12.400 over upper drain no. 1, Talkha, for the General Directorate of Damietta Drainage

202 Bridge at km 14.150 over Al-Hafir drain, for the General Directorate of Damietta Drainage, Talkha

203 30 t reinforced-concrete bridge on piles at km 11.00 over Al-Atawy drain, Faraskour

204 30 t reinforced-concrete bridge on piles at km 2.50 over Al-Atawy drain, Faraskour

205 30 t bridge at km 5.25 over Al-Dahriya drain

206 30 t bridge at Ezbet Ezzat, km 1.35

207 Mecca private hospital, Senbellawein, Dakahlia

DEWATERING AND WELLS (7)

208 Dewatering system design, Al-Tahawiya water plant site, Belbeis, Sharqia

209 Dewatering design, conveyor channel unit at the reception and beet area, second production line, Dakahlia Sugar Company, Belqas, Dakahlia

210 Dewatering design for two ground tanks, Aga water plant, Dakahlia

211 Dewatering design for a gravity sewer network, Zefta, Gharbia

212 Dewatering design for a force-main crossing under Bahr Tannah drain, Al-Salahat village sewerage

213 Dewatering design for the Bahaida and Kafr Bahaida sewerage project, Mit Ghamr, Dakahlia

214 Dewatering design for the intake line of the drinking-water treatment plant and the force mains, Toukh and its villages

06 Design Review

مراجعة التصميمات

From 2005 to January 2021 the office served as a design review office for the Egyptian Decennial Liability Insurance Pool, reviewing the structural designs of buildings before insurance policies were issued.

189	128	61	2006	2020
Reviews listed in the record	In Gharbia Governorate	In Kafr El-Sheikh Governorate	Earliest review in the record	Latest review in the record

The reviews cover residential buildings and towers of up to basement, ground and 11 floors with services in Tanta, El Mahalla El Kubra, Kafr El-Sheikh, Desouk, Baltim, Motobas and Samanoud, as well as public buildings, including:

- Qutour District Court, Gharbia (2006)
- Ophthalmic hospital, El Mahalla El Kubra (2006)
- Fever hospital, El Mahalla El Kubra (2006)
- Government services complex, Zefta (2006)
- Fever hospital, Kafr El-Zayat, buildings A and B (2007)
- 18 residential buildings, National Housing Project, Kafr El-Zayat (2007)
- Samanoud general hospital (2008)
- Student services building, Kafrelsheikh University (2008)
- 48 youth housing buildings, Kafr El-Sheikh (2008)

Owner names, policy numbers and contract values are not published in this edition.

07 Integrated Design Packages

الأعمال المتكاملة

Soil investigation, architectural and structural design, and tender documents and specifications for the Menoufia Housing and Utilities Directorate.

001 Health centre, Mit Khaqan, Shebin El-Kom, Housing and Utilities Directorate

002 Integrated-care hospital, Zarqan, Tala, Housing and Utilities Directorate (1999)

003 Integrated-care hospital, Toukh Delka, Tala, Housing and Utilities Directorate (1999)

004 Model rural hospital, Shanawan: structural and architectural design, Housing and Utilities Directorate (1999)

005 Rural hospital, Talia, Ashmoun (2000)

006 Rural hospital, Fisha Al-Kubra, Menouf (2000)

007 Integrated health unit, Tamalay, Menouf, with septic tank: structural and architectural design (1999)

008 200 m³ elevated tank, 35 m high, Damhoug, Quesna: architectural and structural design (Oct 1996)

009 Youth centres: Nader Shatanouf, Kafr Rabie, Qalty, Sobk Al-Dahhak, Al-Bagour, Dabouky

010 Government services complex, Shebin El-Kom, block D: plumbing, electrical and sections

011 Al-Senousiya urban project: architectural and structural design

012 200 m³ elevated water tank, 35 m high, Taha Shubra village, Quesna

013 Elevated water tank, Ashmoun, Menoufia: structural design

014 200 m³ elevated water tank, 35 m high, Bahnabay village, Al-Bagour

015 Treatment and collection tanks for the health unit, Hourin, Birket Al-Sab (1999)

016 1,000 m³ tank, 50 m high, Quesna, Menoufia

017 Youth centres: Kafr Tabalouha, Kafr Hourin, Kafr Eleim, Shebin El-Kom

018 Water tank, Samalig, Al-Kom Al-Akhdar, Shebin El-Kom

019 Residential buildings on the former landfill site and Al-Hussein school extension, Ashmoun, Menoufia

020 Low-cost housing project, Sirs El-Layan, Menoufia Housing and Utilities Directorate

021 200 m³ elevated water tank, 35 m high, Arab Al-Raml, Quesna, Menoufia Housing and Utilities Directorate

022 200 m³ elevated water tank, 35 m high, Al-Sudud, Menouf, Menoufia Housing and Utilities Directorate

023 200 m³ elevated water tank, 35 m high, Sangarg, Menouf, Menoufia Housing and Utilities Directorate

024 200 m³ elevated water tank, 35 m high, Shamandil, Quesna, Menoufia Housing and Utilities Directorate

025 200 m³ elevated water tank, 35 m high, Shubra Balula, Menouf, Menoufia Housing and Utilities Directorate

026 Upgrade of the treatment plants of the Sahel Al-Gawaber sewerage project, Al-Shohadaa, Menoufia

027 Upgrade of the treatment plants of the Mazraat Al-May sewerage project, Menoufia

028 National Housing Project buildings on the remaining land of the old Menouf public market

029 Upgrade of lift station no. 4, Shebin El-Kom sewerage project, Menoufia
